

## Oracle Clinical™ for Programmers Get Trained by Experts.

### ABOUT THIS CLASS

This 3-day class provides an Overview of Oracle Clinical. Oracle Clinical functionality and aspects of the underlying database structure will be discussed. The course consists of presentations, demos and hands-on exercises. Each student will have a laptop and will be connected to a live Oracle Clinical database.

### FUNCTIONALITY COVERED ...

- Overview of the Drug Development Process
- Modeling Case Report Forms
- Use of the Global Library
- Creating DCIs and DCMs
- Data Entry
- Study Definition
- Discrepancy Management
- Data Clarification Forms
- Validation Procedures
- Data Extracts

### WHO SHOULD ATTEND?

This class is designed for Programmers who will be interacting with Data Managers for producing reports and performing Oracle Clinical system customization work.

### ABOUT YOUR INSTRUCTOR

Steven Rifkin, PhD is a Sr. Director of Consulting at BioPharm Systems, Inc. He has worked with Oracle Clinical since 1995, and has assisted over 40 companies with implementation of Oracle Clinical and TMS, leading the implementation process, providing training and performing custom coding.

### PUBLIC TRAINING COST
