

BioPharm Academy Training Services

Comprehensive and tailored training is crucial to the success of any clinical trial program. BioPharm Academy provides training on clinical applications to users, including sites and sponsor staff. Our seasoned team of instructors continually enhances training materials for all of the Oracle Health Sciences applications we specialize in.

Key Features:

- Customized training solutions
- Formal instructor-led training
- Courses include presentations, demonstrations, and hands-on exercises
- Participants have live access to clinical applications and data
- Certificate of completion is provided

Several training options are available, including:

- Public classroom training in San Mateo, California and New Providence, New Jersey
- Private on-site training anywhere in the world

“The training that BioPharm provided was excellent and well received by the team. I know that people came back to work and were quite excited by many of the things they had learned. Just wanted you to be aware of how pleased the group was about the training.”

– Robarts Clinical Trials

We provide training on:

- Argus Safety Suite
- Adverse Event Reporting System
- Oracle Clinical
- Remote Data Capture
- Thesaurus Management System
- Discoverer
- Siebel Clinical

About Us
