

Safety & Pharmacovigilance Offerings

BioPharm Systems' safety and pharmacovigilance practice provides implementation, integration, upgrade, and migration services for Oracle's Argus Safety Suite and Adverse Event Reporting System (AERS), the most widely used safety management systems in the world. We also offer Accel-Transfer, which is a solution that extracts, transforms, and loads data from one safety application into another. These solutions are cost-effective and offer vast capabilities, flexibility, and scalability.

With our expertise in safety and pharmacovigilance, we can help your organization with:

- Best practice analysis and recommendations
- Development and harmonization of global processes and SOPs
- Requirements analysis and development
- Implementation, integration, migration, configuration, and upgrades
- Validation (IQ/OQ/PQ)
- Hosting
- Training

ORACLE® Gold Partner

“BioPharm did an excellent job during the implementation and upgrade of our systems. Their consultants provided us with invaluable support and demonstrated commitment and thoroughness, all while uncovering and solving various glitches during the project. Their skills, knowledge, and quality of work played an important role in the successful completion of the project and were greatly appreciated.”

– Apotex

We are experts in:

- Argus Safety Suite
- Adverse Event Reporting System

About Us

BioPharm Systems is an information technology consulting company that focuses on the life sciences industry.
